

Coding Camp

Hello World Program:

Step One: Make a new Project (Project -> New Project), and save it on the Desktop. Name it "FirstProject"

Step Two: Make a new Class (New Class -> Select Class -> Name it "Main"

Step Three: Double-click Main

Step Four: Insert following code below "private int x"

```
public static void main(String[] args) {  
    System.out.println("Congratulations!");  
}
```
